Model 7223WB Tabletop Wrap Station

FEATURES:
- Digital Speed Control
- Adjustable angle for taper
- Capable of running multiple size containers

OPTIONS:
- Hopper for auto-feed
- Low label/out of label alarms
- Programmable presets
- Custom guarding
- Additional conveyor length
- Custom configurations
- Clear label sensor
- Floor level base with casters
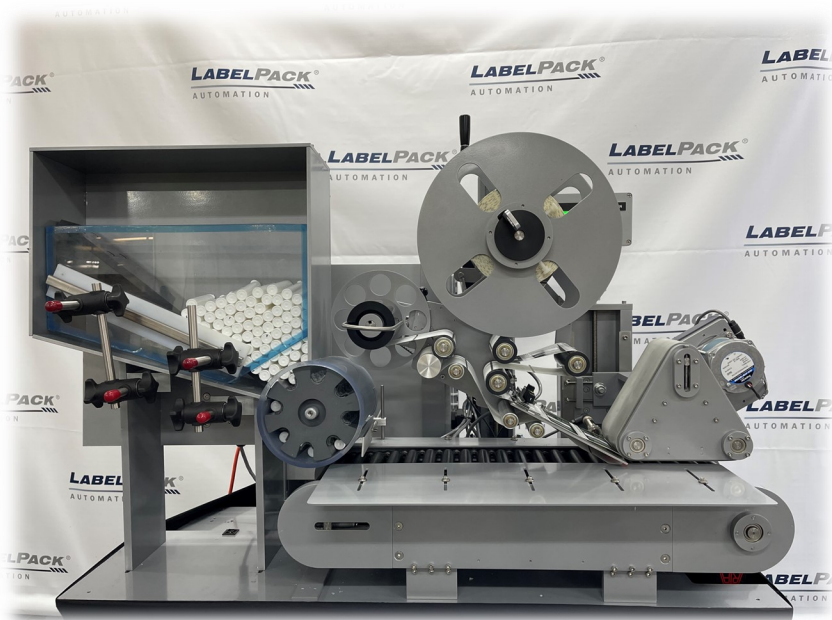

The 7223WB is designed to label 0.5"-2.0" size cylindrical containers efficiently with a small fooprint. The system is heavy-duty, affordable, and compact in size. This machine can also be customized to run larger size containers. It can be used as a tabletop, or integrated into a production line.
